

## Dragon Card

### Required –

- 5 inch square Shimmer card
- A5 white card
- Teal and orange toned Shimmer mist
- Aqua Chalk mist
- Silver inkpad
- Red Grosgrain ribbon
- Kaszazz stamps – Dragon and Scales
- Blue and Gold H2O paints
- Red Liquid Pearls
- Stazon Timber Brown inkpad

### Instructions –

1. Cut a 4 ¾ inch square from the white card.
2. Spritz a plastic cover with water then spray sections with the teal and the orange shimmer mist. Press white card square down into the mix and lift off. Dab off excess fluid then spritz with the aqua chalk mist. Put aside to dry thoroughly.
3. Stamp the dragon stamp with the Stazon ink onto the remaining white card. Spritz slightly with water then gently tear off the excess along two of the sides. Roll the torn edges then put aside to dry.
4. Ink the scales stamp with silver ink and stamp down onto the card piece created in step 2. Tear off two of the sides slightly to hide that the stamp does not completely cover the surface.
5. Adhere the scales stamped card to the front of the card base with it positioned further to the left.
6. Add two rows of ribbon to the left side with one of these featuring a knot.
7. Colour the dragon in with a paintbrush and the gold and Blue H2O paints then adhere to the centre of the card front.
8. Finally add a red pearl dot to the eye.
